

Trade Select™

Trade Select™ VapourTech® Brane® VHP

Product Code: TSVHP

Vapour permeable wall insulation

For moisture control behind all types of cladding and in all wall systems in Climate Zones 2-8

Suitable for residential and commercial applications

Trade Select™ VapourTech® Brane® VHP is a Very High Permeance (VHP), vapour permeable, triple-layer, Light Wall Duty wall wrap designed for use in a wide range of wall systems in both residential and commercial applications.

Trade Select™ VapourTech® Brane® VHP is classified as a Water Barrier and Class 4 Vapour Permeable membrane. Very high levels of water vapour are allowed to absorb and diffuse through the core non-woven structure, ensuring that condensation risk is controlled, while outside liquid water cannot penetrate inwards. Trade Select™ VapourTech® Brane® VHP is chemically non-reactive, such as corrosive conditions close to coastlines.

- > Class 4 Vapour Permeable
- > Water Barrier
- > 30 days UV exposure
- > Triple layer construction for durability
- > Low Flammability, suitable for all BALs in bushfire-prone areas

Application

Trade Select™ VapourTech® Brane® VHP is used as a wall wrap behind all types of cladding and in all wall systems in Climate Zone 2-8. Suitable for residential and commercial applications.

NOTE: It is NOT recommended for this application in ABCB Climate Zone 1; select from our range of Class 1 and 2 Vapour Barrier products instead.

Trade Select™ VapourTech® Brane® VHP is available in 1.37 m and 1.5 m width rolls, and a convenient 2.74 m width roll that halves installation time and reduces the amount of air gaps and joins in the wall system.

If installed behind non-absorbent claddings such as steel, provision should be given for adequate drainage of any trapped moisture.

Construction

Trade Select™ VapourTech® Brane® VHP is made with an advanced three-layer construction: two tough outer layers of spun-bonded fabric protecting an inner core of VHP membrane.

Total System R-Values

Light Weight Cladding

fixed to battens with Trade Select™ VapourTech® Brane® VHP + R2.7 fibrous batt.

Winter **R, 2.92**

Summer **R, 2.77**

Brick Veneer Wall

with Trade Select™ VapourTech® Brane® VHP + R2.7 fibrous batt.

Winter **R, 2.93**

Summer **R, 2.78**

R-values apply to typical conditions for mainland Australian capital cities and have been calculated by an independent consulting engineer in accordance with AS/NZS 4859.2:2018. For detailed design of building systems, seek advice based on actual site conditions from a qualified licensed engineer. The contribution of this product to the total system R-value depends on installation and environmental conditions.

Material Properties and Classifications

Trade Select™ VapourTech® Brane® VHP classifications in accordance with AS/NZS 4200.1:2017

Criteria	Reference	Result	Requirement
Flammability Index	AS 1530.2-1993	Low ≤ 5	High (> 5) / Low (≤ 5)
Nominal Material Thickness		0.38 mm	Value
Duty	AS/NZS 4200.1:2017	Light Wall	Classification
Burst Strength	AS 2001.2.19-1998	254 N	≥ 200 N
Edge Tear Machine Direction	TAPPI T 470 om-89	180 N	Min 45 N
Edge Tear Lateral Direction	TAPPI T 470 om-89	89 N	Min 45 N
Vapour Control	ASTM E96	Class 4 Vapour Permeable	Class 1 to 4
Vapour Permeance	ASTM E96	12.848 µg/N-s	Value
Water Control	AS/NZS 4201.4:1994	Water Barrier	Classification
Resistance to Dry Delamination	AS/NZS 4201.1:1994	Pass	Pass
Resistance to Wet Delamination	AS/NZS 4201.2:1994	Pass	Pass
Shrinkage (Repeated wetting & drying)	AS/NZS 4201.3:1994	0.0%	< 0.5%
Electrical Conductivity	AS/NZS 4200.1:2017	Non-conductive	Classification
Emittance Value	AS/NZS 4201.5:1994	0.9, 0.9	Value
Emittance Classification	AS/NZS 4200.1:2017	IR Non-reflective, IR Non-reflective	Classification
Emittance Category	AS/NZS 4200.1:2017	NN	Category

NCC Compliant

Trade Select™ VapourTech® Brane® VHP complies with AS/NZS 4200.1:2017 and therefore meets all of the requirements of the *National Construction Code* of Australia for pliable building membranes, insulation and sarking-type materials.

Fire Performance

Flammability Index

Low (≤5)

Tested in accordance with AS1530.2-1993 - *Methods for fire tests on building materials, components and structures Part 2: Test for flammability of materials.*

Bushfire Attack Levels

Complies with AS3959-2018 *Construction of buildings in bushfire-prone areas* for use in all BALs.

Seek independent advice regarding the selection of sarking prior to installation in the BAL design.

Dimensions

3050 mm x 30 m (91.5 m²)

2740 mm x 30 m (82.2 m²)

1500 mm x 30 m (45 m²)

1370 mm x 30 m (41.1 m²)

Nominal Thickness: 0.38 mm

Specification Notes

When specifying, state the following:

Product Name: Trade Select™ VapourTech® Brane® VHP

The pliable building membrane to be installed shall be Trade Select™ VapourTech® Brane® VHP, very high permeance wall wrap and shall be installed in accordance with AS 4200.2: 2017 *Pliable Building Membranes and Underlays, Part 2: Installation.*

Emittance Value: 0.9, 0.9

Emittance Classification: IR Non-Reflective, IR Non-Reflective

Vapour Control Classification: Class 4 Vapour Permeable, 12.848 µg/N.s

Water Control Classification: Water Barrier

Flammability Classification: Low (≤5)

Duty Classification: Light Wall in accordance with AS/NZS 4200.1:2017

Handling and Storage

Store this product undercover in a clean, dry place in the pack provided out of contact with alkaline products, cement and mortar.

Durability may be affected by environmental factors, including chemical and airborne pollutants, if used in industrial or farm buildings.

Australian designed for Australian conditions. Manufactured by: Ametalin 9-11 Playford Crescent, Salisbury North SA 5108 T: +61 8 8285 6955 F: +61 8 8285 5911 E: info@ametalin.com
